Subject: Community Vaccinations

Good Afternoon All

It is with much gratitude we announce South 32 has made available 100 Covid Vaccinations for community residents. The vaccinations will be available this Thursday and Friday at the GEMCO Vaccination facility at the Alyangula ASEC Hall.

ALC will be operating return bus services for both Angurugu and Umbakumba communities and the Sealink bus service will operate a free service on these days also.

The Clinic will have doctors and nurses, familiar to community working alongside the GEMCO staff.

A BBQ will be available at the ASEC Hall for those receiving their vaccinations.

Whilst a bus service will be operating, due to the limited number of vaccinations, I encourage you to prioritise those of your community staff/board members and elders within your circles to bring them in early Thursday to ensure they receive their vaccination.

Please feel free to contact me should you have any questions.

Thank you to all those involved, who are making this possible.

Kind Regards

[Racheal Kleinschmidt]
